A small combination of very wealthy capitalists is given credit for the rise in Pacifics and there is no disguise of the belief in the large part played by manipulation in the advance. Even Mr. Harriman himself, while asserting his faith in the value of his properties as reflected in the advancing quotations, has given public expression to his conviction that of much of the market activity in shares of much of the market activity in shares represents sales "made in a circle."

Day to day sales between professional traders may, in fact, make up the largest part of seeming activity in market people's Gas est part of seeming activity in market people's Gas. transactions and it is clear that so long as the latest buyers are willing to take the stocks from the latest sellers at an the stocks from the latest sellers at an advance in prices, the succession of paper profits will continue. Chicago. Sept. 9.—An absence of export demand and a liberal increase in the world's available stocks caused weakness in the wheat market here today, closing quotations being \$\particle a \particle a \particle c \partil c \particle c \particle c \particle c \particle c \particle c \ GRAIN AND PROVISIONS. the chief depressing influences and showed an increase of 5,914,000 bushels for the week. A falling off in export demand also tended to weaken the market. All also tended to weaken the market. All local export houses claimed that there was no demand for wheat, and cash concerns also asserted that the demand by shippers and millers was equally slack for cash wheat. New York, however, reported that foreigners had bought a little wheat there. The market closed weak, at almost the lowest point. Clearences of wheat and flour were equal to 229,600 bushels. Primary receipts were 2,047,000 bushels, compared with 724,000 the corresponding day a year ago. Minneapolis, Duluth and Chicago reported receipts of 1,014 cars against 525 last week and 376 cars a year ago.

Demand for corn was fairly active all day, and offerings at no time were liberal. The market closed firm, with prices up % to 4.6%c. Local receipts were 412 cars, with 107 of contract grade.
Selling of September and December deliveries by cash houses was the feature of trade in the oats market. The market was influenced to a large extent by the weak-

ness of wheat, sentiment being bearish all day. At the close, prices were ½ to ½c below the previous close.

Shorts were free buyers of lard, but aside from that the provisions market was dull all day. Prices at the close were 5c lower to 7½c higher.
Estimated receipts tomorrow: Wheat, fifty-two cars; corn, 210; oats, 275. Hogs,
